Reenter the correct password.You can use different combinations. DCP8060 DCP8065DN The machine returns to its default settings 60 seconds after it finishes copying. Then press a or b to choose Quality. This allows you to copy two or four pages onto one page, which lets you save paper. Duplex Copy 1 sided i 2 sided Portrait Landscape 2 sided i 2 sided Portrait Landscape 2 sided i 1 sided Portrait Landscape Load your document. Use the dial pad to enter the number of copies up to 99. Press Duplex and a or b to select Advanced. Then press a or b to choose Contrast. Press OK. Load your document. Use the dial pad to enter the number of copies up to 99.Put the machine near a standard grounded electrical socket.If any cables become damaged, disconnect your machine, and contact your Brother dealer. Do not place any objects on the machine, or obstruct the air vents. Do not use flammable substances near the machine. Do not handle the plug with wet hands. Doing this might cause an electrical shock. Always make sure the plug is fully inserted. After you have just used the machine, some internal parts of the machine will be extremely hot. DO NOT use a vacuum cleaner to clean up scattered toner. Doing this might cause the toner dust to ignite inside the vacuum cleaner, potentially starting a fire. Please carefully clean the toner dust with a dry, lintfree cloth and dispose of it according to local regulations. Never use a plug that does not have a cover. If in any doubt, call a qualified electrician. Warning This printer must be earthed. The wires in the mains lead are coloured in line with the following code. Important safety instructions Read all of

these instructions. This plug will only fit into a grounded power outlet. This is a safety feature. If you are unable to insert the plug into the outlet, call your electrician to replace your obsolete outlet. Save them for later reference. Follow all warnings and instructions marked on the product. <http://editionsitaliques.com/userfiles/cx500-service-manual-pdf.xml>

Unplug this product from the wall outlet before cleaning the outside of the machine and the scanner glass. Adjust only those controls that are covered by the operating instructions. Incorrect adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to normal operation. A list of Authorized Service Centres has been included for your convenience, or you may contact the Brother Dealer for Service. Unplug this product from the wall outlet and refer servicing to Authorized. Brother is a registered trademark of Brother Industries, Ltd. MultiFunction Link is a registered trademark of Brother International Corporation. Windows and Microsoft are registered trademarks of Microsoft in the U.S. and other countries. If you want to buy an optional lower tray unit, contact your Brother dealer. For setup, see the User's Guide that we have supplied with the lower tray unit. Disconnect the interface cable from the machine, and then unplug the power cord from the electrical socket. Remove the DIMM cover and interface access cover. Unpack the DIMM and hold it by its edges. Most problems can be easily resolved by yourself. If you need additional help, the Brother Solutions Center offers the latest FAQs and troubleshooting tips. Visit us at Try to print again. Suggestions Make sure that the Brother TWAIN driver is chosen as the primary source. This program will repair and reinstall the software. Rough surfaced paper or thick paper may cause this problem. Make sure that you choose the correct media type in the printer driver or in the ' machine s Paper Type menu setting. Call Brother or your dealer for service. Clean the laser scanner window with a soft cloth. See scanner window on page 69. High temperatures and high humidity will cause paper to curl. ABCDEFG H abcdefghijk A B C D a b c d e 0 1 2 3 4 Poor fixing. If this happens, your machine will identify the problem and display an error message.

The most common error messages are shown below. Error Message Cause Paper is not the correct size. Check Paper Size The temperature of the drum unit or. Disabled DCP8065DN only The primary corona wire on the Dust On Drum drum unit needs to be cleaned. The temperature of the fuser unit Fuser Error does not rise at a specified temperature within a specified time. Call Brother Customer Service to replace the laser unit. Call Brother Customer Service to replace the PF Kit 1. Call Brother Customer Service to replace the PF Kit 2. Call Brother Customer Service to replace the PF Kit MP. Document is jammed in the top of the ADF unit The document may get jammed if it is not inserted or fed properly, or if it is too long. Follow the steps below to clear a document jam. Pull the jammed document out to the right. Slowly take out the drum unit and toner cartridge assembly. The jammed paper may be pulled out with the toner cartridge and drum unit assembly, or this may release the paper so you can pull it out of the paper tray opening. Take out the drum unit and toner cartridge assembly. Open the back cover. Troubleshooting and routine maintenance Pull the tabs at the left and right hand sides toward you to open the fuser cover 1. Close the front cover. Paper is jammed in the duplex tray DCP8065DN only Pull the duplex tray completely out of the machine. Pull the jammed paper out of the machine or the duplex tray. Take out the jammed paper if there is any inside the drum unit. Put the toner cartridge back into the drum unit until you hear it lock into place. If you put it in properly, the lock lever will lift automatically. Wipe the outside of the machine with a soft cloth to remove dust. Remove anything that is stuck inside the paper tray. Wipe the inside of the paper tray with a soft cloth to remove dust. Lift the document cover 1. Clean the white plastic surface 2 and scanner glass 3 underneath it with isopropyl alcohol on a soft lintfree cloth.

<http://eco-region31.ru/bosch-washing-machine-maxx-classic-instruction-manual>

In the ADF unit, clean the white plastic bar 1 and the scanner glass strip 2 under it with isopropyl alcohol on a lint free cloth. Gently clean the laser scanner window 1 by wiping it with a clean soft,

dry lint free cloth. Do not use isopropyl alcohol. Put the drum unit and toner cartridge assembly back into the machine. Open the front cover and take out the drum unit and toner cartridge assembly. Put the print sample in front of the drum unit, and find the exact position of the poor print. The machine is supplied with a standard TN 3145 toner cartridge that must be replaced after approximately 3,500 pages. Put the used toner cartridge into the aluminium bag and discard it according to local regulations. Gently rock the toner cartridge from side to side five or six times to spread the toner evenly inside the cartridge. Pull off the protective cover. If the LCD shows Drum Near End, the drum unit is near the end of its life and it is time to buy a new one. Even if the LCD shows Drum Near End, you may be able to continue printing without having to replace the drum unit for a while. Hold down the lock lever on the right and take the toner cartridge out of the drum unit. Note Discard the used drum unit according to local regulations, keeping it separate from domestic waste. The parts listed below will have to be replaced after printing approximately 100,000 pages. Please call your Brother dealer for service when the following messages appear on the LCD. LCD message. Checking the page counters You can see the machine's page counters for. The LCD provides onscreen programming using the menu keys. We have created step by step onscreen instructions to help you program your machine. Simply follow the instructions as they guide you through the menu selections and programming options. Press 2 for Copy menu. Press 3 for Printer menu. DCP8060 Press 4 for Machine Info menu. DCP8065DN Press 4 for LAN menu. Press 5 for Machine Info menu.
