Figure 1 38 Envelopes that have been cre ased after th ey have been printed At the back of t he printer, open t he faceup out put tray and pus h down the blue tabs at the left and right han d sides as shown in the f igure belo w. Figure 137 Make sure that the envelope s are neatly stacked and in t he proper position in the MP tray. If they are not, the env elopes may not be f ed properly, res ulting in a skewed printout or a jam. Figure 1 39 7 Send the print data to th e printer. 8 After you fini sh the print job, close the faceup out put tray. Put a new DL size doubl eflap envelope in t he MP tray with the longes t edge of the envelope in f irst, then pri nt again.Figure 1 40 3 While press ing the bl ue papergui de releas e levers, slide the paper guides to f it the tr ansparency size. Check that t he guides ar e firml y in the slots. Figure 1 41 4 Put transparen cies in the tr ay. Do not put more than 10 tr ansparencies i n the tray at any one time, o r it may cause a j am. Figure 1 42 Figure 1 44 Caution Remove each transparency immediately. Pull out the support fl ap to prevent transpa rencies from slidi ng off the facedown ouput tray. Figure 143 Media Type Trans parencies Paper Source Manual PCL driver 2 Open the faceup output tr ay. Figure

1 45 Sli de the paper guide s to the transparency size. Figure 1 47 5 Using both hands put t he transparency in the manual feed tr ay until i ts front edge touches t he paper feed roll er. Hold the transparency in thi s position until the printer aut omaticall y feeds it in for a shor t distance, and the n let go of the trans parency.

Figure 1 48 A NO PAPER status is shown by the control panel LEDs until you put a transparency in the manual feed tray. Figure 146 T oner Drum P aper Status Repeat fo r each transparency t hat you want to print. 7 After you fini sh the print job, close the faceup out put tray. Caution Remove each transparency i mmediately after pri nting.Media Type Trans parencies Paper Source MP Tray PCL driver PS driver Figure 1 49 3 Send the print data to th e printer. 4 Open the MP tray and lower it gently. Figure 1 51 A NO PAPER status is shown by the contr ol panel LEDs until you put a trans parency in t he MP tray. Figure 150 T oner Drum P aper Status Figure 1 52 6 When putting t ransparenc ies in the MP tray, make sure they touch the back of the tray and remain under the maximum paper height guides on both si des of the tray. Do not put more tha n 10 transparenci es in the MP tray at any one time, or it ma y cause a jam. Figure 1 53 7 While press ing the pap erguide r elease lev er, s lide the paper guide to fit the tr ansparency si ze. Figure 1 54 Make sure that the trans parencie s are strai ght and in the pr oper positi on in the MP tray. If they a re not, the transpa rencies may not be fed properl y, resulting i n a skewed printout or a jam. Caution Remove each transparency immediately after pri nting. Stack ing the printed transpa rencies may cause a paper jam o r the tr ansparency t o curl.Remove the paper and strai ghten it. Printing o n both sides of the pap er manual dup lex printing Manual duplex printin g from the paper tray 1 Choose the Manual Duplex printing mode you n eed from the Advanced tab, and from the Basic tab select the Paper Source to be Tra y1. 2 The printer wil l automaticall y print all th e evennumbered pages on one side of the paper fi rst. 3 Remove the print ed evennumbered pages f rom the output tr ay and put them back i n the paper tr ay, placing the paper with the side to be printed on blank side face down.

Follow the instr uctions on the computer screen. Figure 1 55 4 The printer wil l now automatically print all the odd numbered pages on the other side of th e paper. The PS driver does not support manual duplex printing. If you sel ect th e Paper Source to be Auto Select in Step 1 us ing HL5150D or H L5170DN, please put the pr inted even numbered pages in th e MP tray. When you put paper in the p aper tray, first empty the t ray then put the pri nted p age in it, with the printed s ide face up. Do not add t he printed pages to t he top of the s tack of u nprinted pap er. Follow the inst ructions on the computer scr een. Repeat this step until you have printed all the evennumbered page s. Figure 1 56 3 Remove the printed evenn umbered pages from the outpu t tray and put them in the same order back into t he manual f eed tray. Place the pape r with the side t hat is goi ng to be printed on the blank side face up. Fol low the instruct ions on the compute r screen. Figure 1 57 4 Repeat Step 3 until you have print ed all the oddnumbered pages on the other si de of the paper. If you select the Paper Source to be Auto Select i n Step 1, ple ase put the printed even numbered pages i n t he paper t r ay. Fol low the instruct ions on the computer screen. Repeat this step until you have printed all the evennumbered page s. Figure 1 58 3 Remove the printed evenn umbered pages from the output tr ay and put them in the same order back into the MP tray. Pl ace the paper with the side that is going to be printed on the blank sid e face up. Follow the instr uctions o n the computer scree n. Figure 1 59 4 Repeat Step 3 until you have print ed all the oddnumbered pages on the other si de of the paper. If you pr int 10 pages on 5 sheets of paper, it wil l prin t page 2 t hen page 1 on the f irst s heet of pape r. It wil l print pa ge 4 th en page 3 on the seco nd sheet of paper. It wil l print pa ge 6 then page 5 on the th ird s heet of pape r, and so on.

To print t he second side, put the paper face up, wit h the leadi ng edge top of the paper at the front of the tray. If lett erhead paper is used, this would be put in the paper tray with the heading fa ce up, and at the front of the tray. To print the second page, put the headi ng face down and at the front of the tray. For Thicker paper tha t has curled once the first side has been printed on, and you

cannot fe ed the paper for the second ti me from manual feed tray or MP tray to allow the ot her side of the paper to be printed on At the back of the print er, open the faceup out put tray an d push down the blue tabs on t he left and right hand sides as shown in the figur e below. When you have finished printing, clo se the face up output tray to re set the two blue tabs back to thei r original position. Figure 160 Figure 1 61 This secti on is f or HL5150D an d HL5170DN. Letter or Legal si ze A4 size In the Advanced tab select Duplex Printing mode, check Duplex, and make sure that Use Duplex tray has b een selected. Select Duplex Type and set Binding Off set if you need, and the n click t he OK butt on. The print er will pr int on both sides of the paper automati cally. PCL driver PS driver Typically, this format is a printer command language or page descr iption language. The printer drivers for the f ollowing ope rating syst ems are on the CDROM that we have supplied.Basic tab 1 Select the Paper Si ze, Mult ipl e Pa ge, Orientation an d so on. 2 Select the Paper Sour ce and s o on. The screens on your PC will v ary depending on your Operati ng System.If you pr int wit h thi s setti ng, th e print speed may be slower depending on the pr int data. To make the Bookl et, fol d the printed pages down the middle. When using th e booklet printi ng function, please note that the paper size, orientat ion, source and other sett ings must remain unchanged fo r the whole document. Wat erma rk You can place a watermarked logo or te xt into your documents.

When you use a bitmap file as a water mark, y ou can change the size of the watermark and place i t anywhere you l ike on the page. When you use text as a water mark, you c an change the font, darkness and angle settings.To repri nt press and hold down the Go butt on unti l all f our LEDs are lit and then release the Go butt on. Quick Print Setup You can turn the Quick Print Setup functi on ON or OFF. A small selection window appears on your computer. Sleep mode acts as though t he printer was turned off. The default timeout is 5 minut es. When Intell igent Sleep Mode is sel ected, i t is automaticall y adjus ted to t he most s uitable timeout s etting dependin g on th e frequency of your pri nter use. Whi le the pr inter is in sl eep mode, a ll the LEDs are off, but the pr inter can still receive dat a from the co mputer. Rec eiving a pr int fil e or document automatic ally wakes up the pri nter to start printi ng. Pressing one of the but tons will also wake up the printer. Sleep mode can be turned off. To turn slee p mode off, go to the Advanced t ab, select Devi ce Options and then select Sleep Time. Double cl ick the word Slee p Time in the Sle ep Time scre en, this wi ll allo w the Sleep Time Off funct ion to appear, cli ck Sleep Time Off to s t op the p rinter going int o slee p mode. The Sl eep Time Off functi on can be hidden by double cl icking t he word Sleep Time in the Sleep Ti me screen again. We recommend that you keep Sl eep mode on for power saving. Status Monitor This repor ts the pr inter s tatus any errors that may happen with the prin ter when printing. The def ault setting for t he Status Monitor is off. If you woul d like to t urn the stat us monitor on, go th e Advanced tab, select Device opti ons and t hen select Status monitor. Macro For HL 5140, HL5150D a nd HL5170DN You can save a page of a document as a macro to the printer memory.

Moreover, you can execute the saved macro in other words, you can use the saved macro as an overlay on any document. This will save time and increase printi ng speed for often used info rmation such as fo rms, company l ogos, letter head formats or invoi ces. If you want to prevent other peopl e from pri nting your data using the Repr int func tion, cl ear the Use Reprint check box in the job spooli ng settings. The page prot ection f eature all ows the printer to create t he full page im age to be pr inted i n memory before physical ly moving the paper through the printer. When the image is very complicated and the printer has to wai t to process the image befor e printing, use thi s function. Time Specifi es the format of the time. Density adjustment Increase or decreas e the pri nt densit y. Tray set tings wi ll match the i nstalled optio ns. 2 Paper Source Setting This feature re cognizes the paper siz e in each paper tray. 3 Auto detection of pri nter options For HL5140, HL5150D and HL5170DN The Auto Detect funct ion finds the current ly installed devi ces and shows the available set tings in the print er driv er. When you clic k the Auto Detect button, option s that ar e instal led on th e printer will be listed. You can manually add or remove opti ons. Auto Detect

functi on may not be available under cer tain printe r conditions. 1 2 3 This secti on is f or HL5150D an d HL5170DN. The screens on your PC will vary dependin g on your Operating System. Sleep mode acts as though t he printer was turned off. When Intell igent Sleep Mode is sel ected, i t is automaticall y adjus ted to t he most s uitable timeout s ettin g dependin g on th e frequency of your printer use. Whil e the p rinter is in s l eep mode, t he LED i s off, but the pr inter can sti ll receive data f rom the computer. Receiving a pr int fil e or document au tomatically wakes up the prin ter to start pr inting. Pressing the GO button will also wake up the pr inter.

We recommend that you keep Sl eep mode on to save power.Border If you want to add a border, use this fun ction. Print on Both Sides When you want to pri nt on bot h sides of the paper, use thi s func tion.Sleep Time When the printer does not recei ve data for a cer tain period o f time timeout, it enters sl eep mode. We recommend that you keep Sl eep mode on to save power. The administrator shoul d set up the IP address, Gateway and Subnet with BRAdmin Professional before using this soft ware. If the administ rator then instal ls the printe r driver and port dr iver using this so ftware, the admini strator can save the file to the fi le server or send the fil e by Email to use rs. Then, each user just cl icks that file to have the printer driver, port dri ver, IP address, and so on, automatically copie d to their PC. This secti on is f or HL5170DN. When the pri nter receives data from t he computer, it automati cally chooses the emul ation m ode. This featur e has been set at the factory to ON. The printer can choose f rom the following combinat ions This secti on is f or HL5150D an d HL5170DN.
