Brother paper Paper Type Item Letter Plain USA only BP60PL Letter Glossy Photo. Gently adjust the paper side guides with both hands and the paper length guide to fit the paper. Make sure the paper side guides touch the sides of the paper. Press and slide the paper side guides 1 and paper length guide 2 to fit the paper size. Check that the paper is flat in the tray and below the maximum paper mark 1. Close the tray cover. Push the paper tray firmly back into the machine. The figures below show the unprintable areas on cut sheet paper and envelopes. The machine can only print in the shaded areas when the Borderless print feature is available and turned on. Cut Sheet Paper Top 1 Cut Sheet. Note If you have connected an external telephone or TAD, it is always available.When you change the size of paper you load in the machine, you will need to change the paper size setting at the same time so your machine can fit an. Press Menu, 2, 0, 1. The LCD will show the new job number and the memory available.The number of pages you can scan into the memory will vary depending on the data that is printed on them. Faxing from the ADF Make sure you are in Fax mode Put the document face up in the ADF. If you do not, the bottom portion of the faxes will be missing. Make sure you are in Fax mode Press Menu, 2, 2, 0. The LCD will then show the Broadcast job number and 1.Clear To cancel the Broadcast, press 1. Use Light when sending a light document. Use Dark when sending a dark document. Make sure you are in Fax mode Load your document. Press Menu, 2, 2, 1. The number of pages you can scan into the memory will vary depending on the data that is printed on them. Make sure you are in Fax mode Load your document. Pick up the handset of an external phone or press Hook and listen for a dial tone. Choosing the Receive Mode The diagram below will help you choose the correct mode. For more detailed information on the receive modes

see Using receive modes on page

38. [http://elk43.com/userfiles_1/daewoo-leganza-1998-manual\(1\).xml](http://elk43.com/userfiles_1/daewoo-leganza-1998-manual(1).xml)

Do you use a Distinctive Ring subscriber service. Are you connecting an external telephone or external TAD telephone answering device to the machine You may want to change the ring delay before using these modes. See Ring Delay on page 38. Fax only Fax only mode will automatically answer every call. The machine calculates the reduction ratio by using the page size of the fax and your Paper Size setting Menu, 1, 3. Tone or pulse Canada only If you are using an external phone and have a pulse dialing service, but need to send tone signals for example, for telephone banking, follow the instructions below. Some ring patterns cannot be registered. The ring patterns below are supported by your Brother machine. Register the one your telephone company gives you. Ring Rings. Call your telephone company for details. This service shows the telephone number, or name if it is available, of your caller as the line rings. Set the Receive Mode to External TAD. See Choosing the Receive Mode on page 37. Recording an outgoing message OGM on an external TAD Timing is important in recording this message. The message sets up the ways to handle both manual and automatic fax reception. You can plug a triplex adapter into an RJ14 outlet. It separates the wires into two separate RJ11 jacks Line 1, Line 2 and a third RJ14 jack Lines 1 and 2. If your machine is on Line 1, plug the machine into L1 of the triplex adapter. Press Menu, 2, 1, 4. Setup Receive 4.Remote Codes Press a or b to choose On or Off. Twodigit number Note If the LCD shows Not Registered when you enter a SpeedDial number, a number has not been stored at this location. Numbers that are part of a group will be marked in the GROUP column. See How to print a report on page 62. Dialing Access codes and credit card numbers You can combine more than one QuickDial number when you dial. You can use only one fax option at a time.

Fax Forwarding The fax forwarding feature lets you automatically forward your received faxes to another machine. If you choose Backup PrintOn the machine will also print the fax this is a safety feature in case there is a power failure. You can then use your PC to view and store these faxes. Even if you have turned off your PC at night or on the weekend, for example, your machine will receive and store your faxes in. Setting a Remote Access Code The remote access code lets you access the remote retrieval features when you are away from your machine. When your machine answers, enter your remote access code 3 digits followed by 1. If you hear one long beep, you have messages. When you hear two short beeps, press 9, 6, 2. When you call the machine and enter your remote access code 3 digits followed by 1, the system will give two short beeps and you must enter a remote command. Remote commands Change the Fax Forwarding, Paging or Fax Storage settings. Transmission Verification Report You can use the Transmission Report as proof that you sent a fax. This report lists the time and date of transmission and whether the transmission was successful OK. It also lets you call somebody else's fax machine and receive a fax from it, so you pay for the call. The polling feature needs to be set up on both machines for this to work. The default setting is Fax. You can change the number of seconds or minutes that the machine stays in Copy mode. See Mode Timer on page 23. The LCD shows the default copy setting Plain Letter. Next Page 1.Yes 2.No Place the next document on the scanner glass. Press OK. Repeat steps g and h for each page of the layout. Set Next Page Then Press OK After all the pages have been scanned,. Use the dial pad to enter the number of copies up to 99. Press Options and a or b to choose Brightness. Note To change the default paper type setting see Paper Type on page 23. It can be on, off or blinking. See the table below for what the light means.

A media card is inserted correctly. No media card is present, or it is incorrectly inserted. Follow the instructions below to start printing directly from your media card Make sure you have put the media card in the proper slot. Lighting, camera settings and other influences will effect the appearance of white. The white areas of a picture may be slightly pink, yellow or some other color. Before Using PictBridge PictBridge requirements To avoid errors, remember the following points The machine

and the digital camera must be connected using a suitable USB cable. Connect your camera to the PictBridge port on the machine using the USB cable. 1 PictBridge port Note Remove any media cards from the machine before connecting the digital camera. Click SOFTWARE USER'S GUIDE or NETWORK USER'S GUIDE from the. WARNING There are high voltage electrodes inside the machine. If the product has been exposed to rain or water. If you are not able to solve a problem with your machine, call Brother Customer Service. See Brother numbers on page i. IMPORTANT Changes or modifications not expressly approved by Brother Industries, Ltd. Industry Canada Compliance Statement Canada only This Class B digital apparatus complies with Canadian ICES003.

Legal limitations for copying Color reproductions of certain documents are illegal and may result in either criminal or civil liability. This memorandum is intended to be a guide rather than a complete listing of every possible prohibition. Brother is a registered trademark of Brother Industries, Ltd. All rights reserved. Windows and Microsoft are registered trademarks of Microsoft in the U.S. and other countries. Most problems can be easily resolved by yourself. If you need additional help, the Brother Solutions Center offers the latest FAQs and troubleshooting tips. Visit us at Printed pages doublefeed and cause a paper jam. Machine does not print from Paint Brush. Machine does not print from Adobe Illustrator. The machine cannot print full pages of a document. Receiving Faxes Difficulty Suggestions Cannot receive a fax Check all line cord connections. Make sure the machine is in the correct receiving mode for your setup. See Receive modes on page 37. If you often have interference on the phone line, try changing the menu setting of Compatibility to Basic or Normal. If this happens, your machine identifies the error and shows an error message. The most common error messages are shown below. You can correct most errors by yourself. If you need more help, the Brother Solutions Center offers the latest FAQs and troubleshooting tips. Print data is left in the machines memory. The USB cable was unplugged while the computer was sending the data to the machine. The other person or other persons Disconnected fax machine stopped the call. If the sending machine has the ability to convert it, the color fax will be received into memory as a black and white fax. Wrong Paper Size Paper is not the correct size. A nonPictBridge compatible or Wrong USB broken device has been connected Device. Make sure you have installed MFLPro Suite on your PC, and then turn on PCFAX Receiving on the PC. For details, see PC FAX Receiving in the Software User's Guide on the CDROM.

Make sure you have set PC Fax. Lift the document cover. Pull the jammed document out to the right. Close the document cover. Pull the jammed paper out of the machine. Put the Jam Clear Cover back on. Make sure the cover is set properly. Troubleshooting and Routine Maintenance Lift the scanner cover 1 from the front side of the machine until it locks securely into the open position. Note Make sure that you pull out the paper support until it clicks. Dial Tone Setting the dial tone to Detection will shorten the dial detect pause. Press Menu, 0, 5. Press a or b to choose Detection or No Detection. The ink dot counter automatically monitors the level of ink in each of the 4 cartridges. When the machine detects an ink cartridge is running out of ink, the machine will tell you with a message on the LCD. Insert the ink cartridge in the direction of the arrow on the label. We also strongly recommend that you continue to use only Genuine Brother Brand replacement ink cartridges. Clean the scanner glass 2 and the white plastic 3 with isopropyl alcohol on a soft lintfree cloth. In the ADF unit, clean the white bar 1 and the glass strip 2 under it with isopropyl alcohol on a

lintfree cloth. Note If you clean the print head at least five times and the print has not improved, call Brother Customer Service. See Brother numbers on page i. Touching the print head may cause permanent damage and may void the print heads warranty. Packing and shipping the machine When you transport the machine, use the packing materials that came with your machine. Note If you are returning your machine to Brother as part of the Exchange Service, pack only the machine. Userfriendly programming helps you take full advantage of all the menu selections your machine has to offer. Since your programming is done on the LCD, we have created stepbystep onscreen instructions to help you program your machine. Choose an option. Press 1 for General Setup menu. Press 2 for Fax menu. Press 3 for Copy menu.

Press 0 for Initial Setup menu. You can scroll more quickly through each menu level by pressing a or b for the direction you want. Adjusts the brightness for copies. Adjusts the contrast for copies. Most dial pad keys have three or four letters printed on keys. For glossy paper or transparencies, we recommend removing printed pages from the output paper tray immediately after they exit the machine to avoid smudging. See Paper type and size for each operation on page 14. Paper Tray Paper type Plain paper, inkjet paper coated paper, glossy paper. Specifications and printed materials are subject to change without prior notice. Service Life of Ink The first time you install the ink cartridges the machine will use extra Cartridge ink to fill the ink delivery tubes. This is a onetime process that enables high quality printing. Availability of these features depends on the model you purchased. ADF automatic document feeder The document can be placed in the ADF and scanned one page at a time automatically. Photo resolution A resolution setting that uses varying shades of gray for the best representation of photographs. PictBridge Allows you to print photos directly from your digital camera at high resolution for photo quality printing. NOTICE The Ringer Equivalence Number is an indication of the maximum number of devices allowed to be connected to a telephone interface. The termination on an interface may consist of any combination of devices subject only to the requirement that the sum of the RENs of all the devices does not exceed five. We cannot recommend using. Please read this Quick Setup Guide for the correct setup procedure and installation instructions. Save all packing materials and the carton in case for any reason you must ship your machine. CDROM User's Guide Quick Setup Guide Telephone Line Cord Power Cord Black LC1000BK Yellow LC1000Y Cyan LC1000C Illustrations in this Quick Setup Guide are based on MFC5460CN.
